Discover «Social Connect, Fan Coupon, Registration Coupon»

The Social Connect module allows visitors to register to your site with their facebook.com login. User registers on your website and get a coupon for registration! Support Statistics for registered customers. **Multilingual & Multishop!**

<https://addons.prestashop.com/en/social-rewards-coupons/8360-social-connect-fan-coupon-registration-coupon.html>

Discover «Social Fan Coupons (4 in 1)»

Attract Facebook fans, Twitter, Pinterest and improve Google+ rank by giving discounts. Get more social leads by using additional information channel!

<https://addons.prestashop.com/en/social-rewards-coupons/8457-social-fan-coupons-4-in-1.html>

Discover «News Advanced + Google Rich Snippets»

This PrestaShop module "News Advanced + Google Rich Snippets" allows to add, edit or delete news from the control panel. It also enables the user to add an image for every news.

<https://addons.prestashop.com/en/blog-forum-new/8069-news-advanced-google-rich-snippets.html>

Discover «Site Cache + Dynamic Hooks»

Site Cache for Prestashop - is the best solution for Prestashop store that significantly speeds up page load time, reduces the load on the server, improves website ranking and remarkably increases sales conversion.

<https://addons.prestashop.com/en/website-performance/17537-site-cache-dynamic-hooks.html>

Zen Option (Support and Updates)

For support and updates, you can bought Zen Option

See here about zen option: <https://addons.prestashop.com/en/content/1-faq#optionzen>

Zen Option this is :

- 12 months of support and updates
- Technical and feature support
- Upgrades and future features
- Security updates

Installation:

1. Enable Force compile.

Prestashop 1.7.x.x

Log into Prestashop Admin Panel and go to Back Office > Advanced Parameters > Performance and set Template compilation: Force compilation. and set Cache: No

Prestashop 1.6.x.x

Log into Prestashop Admin Panel and go to Back Office > Advanced Parameters > Performance and set Template compilation: Force compilation.

2.1 Upload files through FTP

Upload all files and folders from folder /modules/ using an FTP client.

2.2 Upload module through admin panel

Log into Prestashop Admin Panel and go to Back Office > Modules -> click on the

Prestashop 1.7.x.x : UPLOAD A MODULE

Prestashop 1.6.x.x; Prestashop 1.5.x.x: Add a new module

Prestashop 1.4.x.x; Prestashop 1.3.x.x: Add a module from my computer

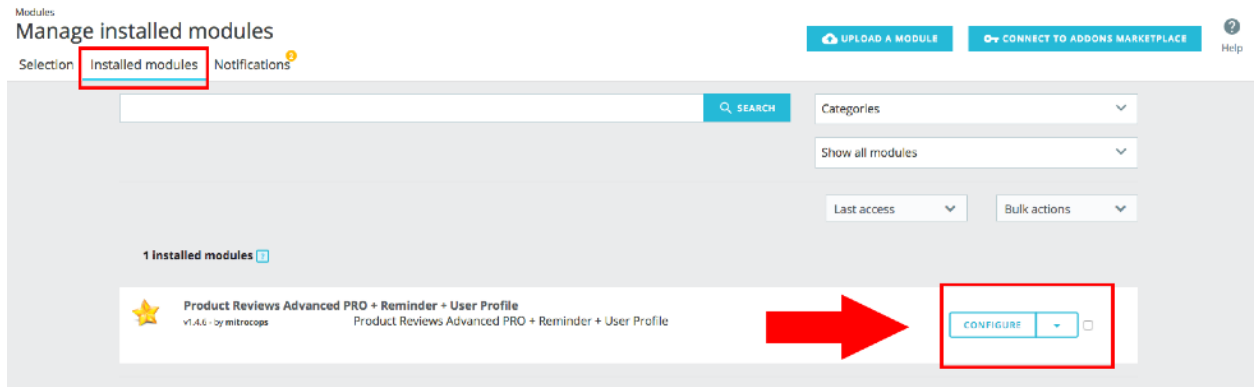

Select .zip file and upload module

3. Install module.

Log into Prestashop Admin Panel and go to Back Office > Modules > **Content Management** Modules and install **Product Reviews Advanced PRO + Reminder + User Profile** module.

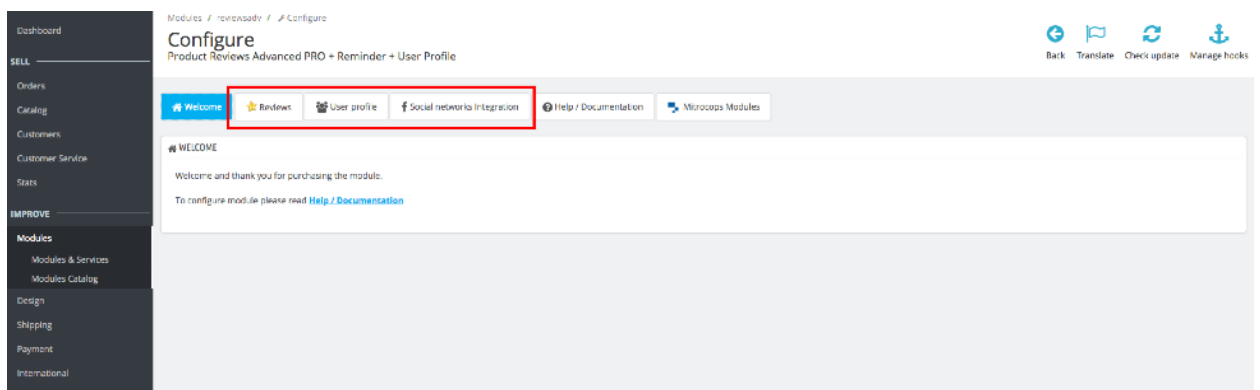

4. Configure module

Go to admin panel -> Modules and Services -> Installed modules tab -> click "Configure" module

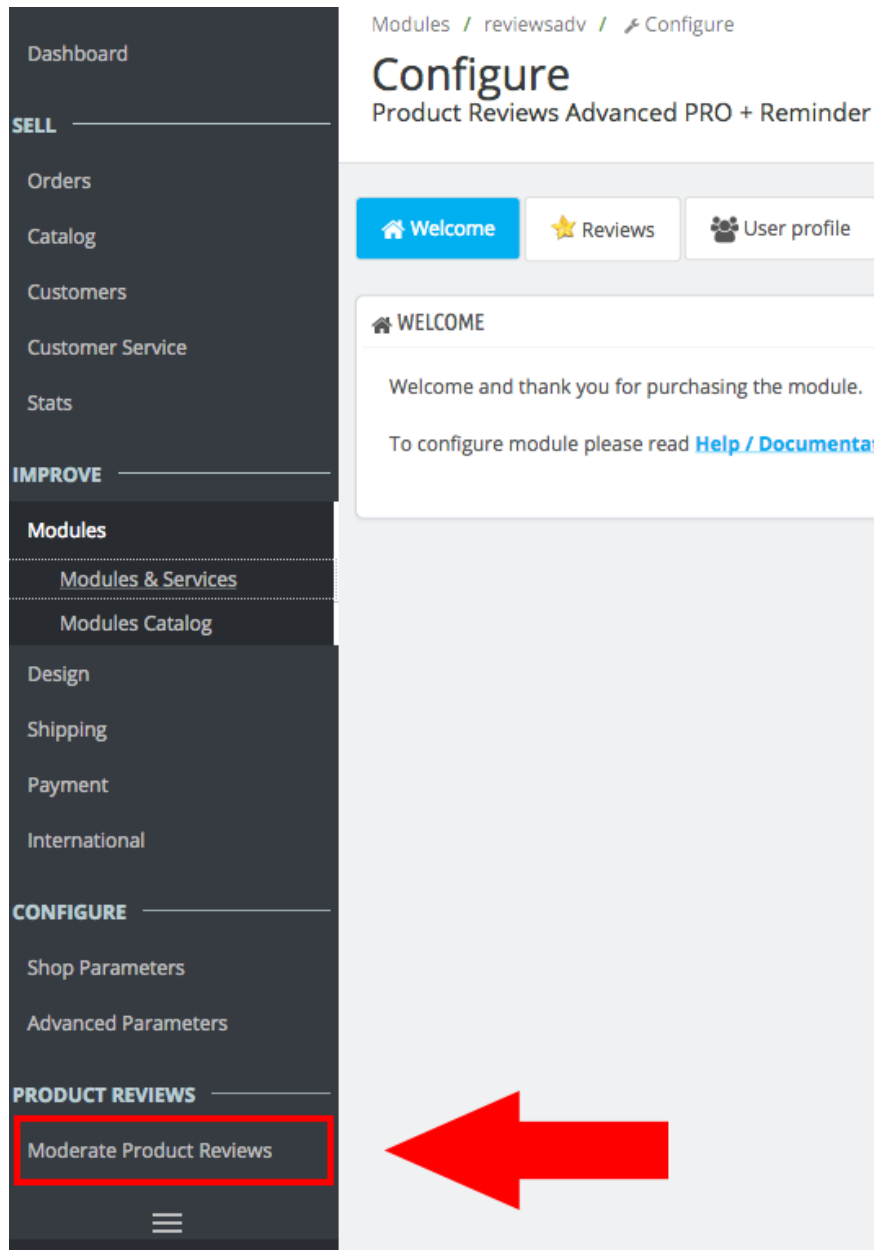

Here you can configure:

- Product Reviews
- User Profile
- Social networks Integration

5. How to moderate Product Reviews ?

Go to admin panel -> **Product Reviews** -> tab «**Moderate Product Reviews**»

Here you can moderate product reviews

Product tabs: Custom theme with tabs on p

Read Step 10 "How to configure product tabs for Prestashop 1.7.x.x ?" in the [readme.pdf](#)

On a standard PrestaShop 1.6 and PrestaShop 1.7 theme, the product page no longer has tabs for the various sections. But some custom themes have added back tabs on the product page.

Enable or Disable Sort by on the product page functional: YES NO

Enable or Disable Helpful review functional: YES NO

SOCIAL BUTTONS

Enable or Disable Social buttons: YES NO

Enable or Disable Social buttons for each Product Review

Display count box: YES NO

You can configure "Voucher, when a user share review on the Facebook" in the [Voucher Settings](#) Tab

Update Settings

We configure product tabs for standard prestashop theme:

1. open file by FTP: /themes/classic/templates/catalog/product.tpl - line 149 - 177

add code in the line 175:

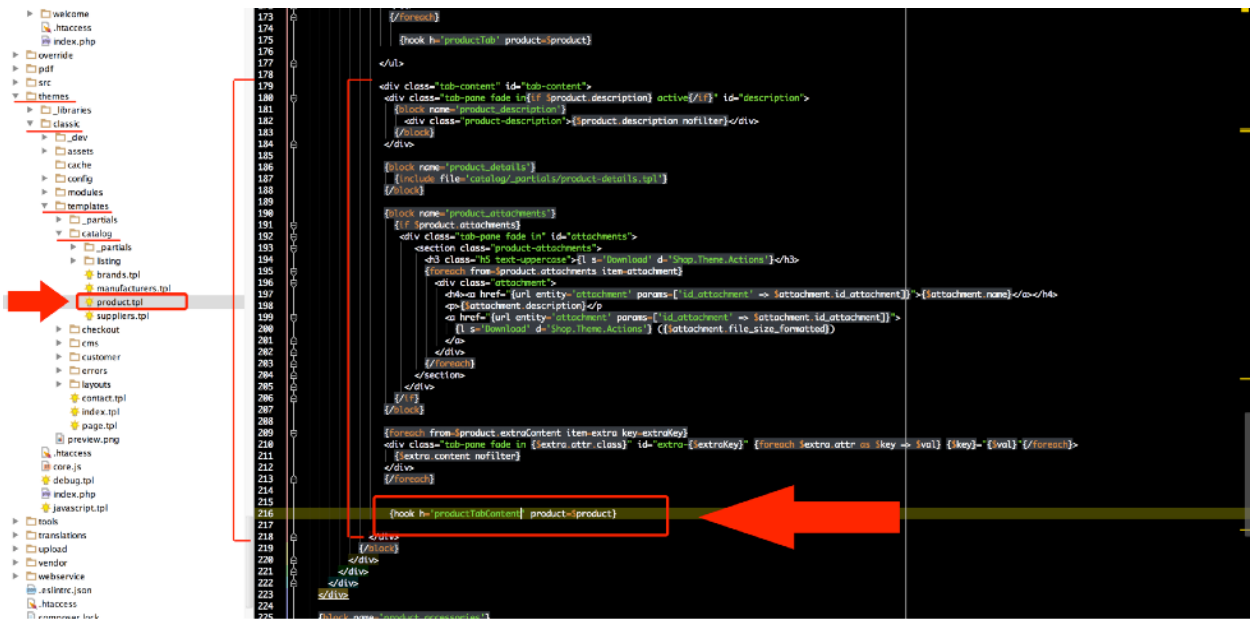

```
{hook h='productTab' product=$product}
```

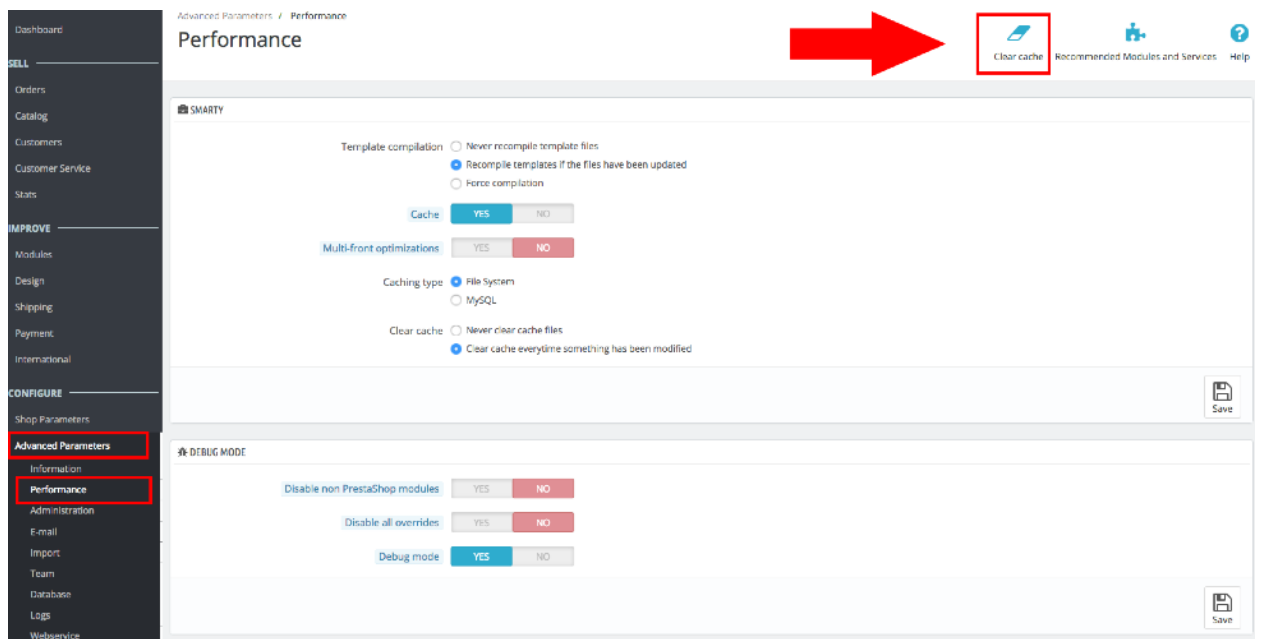

2. open file by FTP: /themes/classic/templates/catalog/product.tpl - line 179 - 218

add code in the line 216:

```
{hook h='productTabContent' product=$product}
```

3. go to admin panel -> **Advanced Parameters** -> **Performance** -> click on the button **Clear cache**

The screenshot shows the PrestaShop administration interface. On the left is a dark sidebar with a menu. The main content area is titled 'Performance' under 'Advanced Parameters'. A red arrow points to a 'Clear cache' button in the top right corner of the main area. The 'Performance' section contains several settings:

- Smarty**
 - Template compilation: ☐ Never recompile template files, ☒ Recompile templates if the files have been updated, ☐ Force compilation
 - Cache: ☒ YES, ☐ NO
 - Multi-front optimizations: ☐ YES, ☒ NO
 - Caching type: ☒ File System, ☐ MySQL
 - Clear cache: ☐ Never clear cache files, ☒ Clear cache everytime something has been modified
- Debug Mode**
 - Disable non PrestaShop modules: ☐ YES, ☒ NO
 - Disable all overrides: ☐ YES, ☒ NO
 - Debug mode: ☒ YES, ☐ NO

Each section has a 'Save' button in the bottom right corner. The 'Clear cache' button is located in the top right corner of the main content area, next to the 'Recommended Modules and Services' link.

4. See result on the product page:

CUSTOMER REMINDER SETTINGS

Enable or Disable Send a review reminder by email to customers **YES** NO
If activated, when a customer purchases a product on your shop, an e-mail will be sent to him after X days (specify below after selecting "yes" here) to invite him to rate the product.

IMPORTANT NOTE: This requires to set a CRON task on your server. [CRON HELP PRODUCT REVIEWS](#)
Your CRON URL to call: <http://localhost:96/en/module/ganigrcview/cron?token=87632ed81312131b5e66b8c092eac601fe32b1f1>

Delay between each email in seconds 10 @ accounts
The delay is intended in order to your server is not blocked the email function

Number of emails for each cron call 20
This will reduce the load on your server. The more powerful your server - the more emails you can do for each CRON call

Delay for sending reminder by email 7 @ days
We recommend you enter at least 7 days here to have enough time to process the order and for the customer to receive it.

Import your old orders start date end date 2017-10-28 15:21:25 Import old orders
Please select a date. All orders placed between that start date and end date (today) will be imported.

Send emails only for the orders with the current selected status

Order status

- ☐ Awaiting check payment
- ☒ Payment accepted
- ☐ Processing in progress
- ☐ Shipped

Update Settings

Here you can:

- select «start date» (Please select a date. All orders placed between that start date and end date (today) will be imported.)
- click «Import old orders» button

3. Configure CRON task for customer reminder for Product Reviews

You can configure sending email messages through cron. You have 2 possibilities:

1. You can enter the following url in your browser: **http://www.yoursite.com/module/reviewsadv/cron?token={your_cron_token}**

2. You can set a cron's task (a recursive task that fulfills the sending of reminders)

The task run every hour: *** */1 * * * /usr/bin/wget -O - -q http://www.yoursite.com/module/reviewsadv/cron?token={your_cron_token}**

How to configure a cron task ?

On your server, the interface allows you to configure cron's tasks
About CRON <http://en.wikipedia.org/wiki/Cron>

www.yoursite.com - this is your site URL

{your_cron_token} - this is your unique token

4. Customer reminder statistics for Product Reviews

Go to module settings -> tab «**Reviews**» -> tab «**Customer Reminder statistics**»

CUSTOMER REMINDER STATISTICS

Send emails only for the orders with the current selected status: **Payment accepted** **Delivered** **On backorder (not paid)**

11. How to change stars color for Reviews?

Go to module settings -> tab «**Reviews**» -> tab «**Product page**»

Select «**Style stars**» : Green, Yellow, Blue

The screenshot shows the PrestaShop 1.7.x.x 'Reviews' module settings. The 'Reviews' tab is selected in the top navigation bar. In the left sidebar, the 'Product page' tab is selected. The main content area displays 'PRODUCT PAGE SETTINGS'. The 'Style stars' dropdown menu is open, showing the following options: Yellow Stars, Green Stars, and Blue Stars. A large red arrow points to the 'Style stars' dropdown menu. Below the dropdown, there is a table showing the number of reviews for each star rating:

Star Rating	Number of Reviews
★★★★★	0
★★★★☆	1
★★★☆☆	1
★★☆☆☆	0
★☆☆☆☆	0

12. How to Import/Export Product Reviews?

1. Import Product Reviews

Go to module settings -> tab «Reviews» -> tab «CSV import/export product reviews»

The screenshot displays the 'CSV IMPORT/EXPORT PRODUCT REVIEWS SETTINGS' page. At the top, a navigation bar includes tabs for 'Reviews', 'Store reviews', 'User profile', 'Social networks integration', 'Help / Documentation', and 'Mitroscops Modules'. The left sidebar contains various settings categories, with 'Reviews' selected. The main content area is titled 'CSV IMPORT/EXPORT PRODUCT REVIEWS SETTINGS' and includes a warning: 'You must respect the following rules to upload the CSV Product Reviews correctly:'. Below this is a table with 12 columns (A-L) defining the CSV format. A link 'Click here to download an example of CSV file (you can write your reviews directly in it)' is provided. The 'CSV IMPORT' section has a 'Browse...' button and an 'Import reviews' button. The 'CSV EXPORT' section has an 'Export all reviews' button. Red boxes and numbers 1, 2, and 3 highlight specific elements: 1 points to the download link, 2 points to the 'Reviews' tab in the top navigation bar, and 3 points to the 'Google Product Review Feeds for Google Shopping' option in the left sidebar.

A	B	C	D	E	F	G	H	I	J	K	L
Language ID	Rating	Product ID	Customer ID	Customer full name	Customer email	Title	Message	Admin Response	Display "Admin response" on the site	Date Add	Status
Format: (1/5)	Format: (1,2,3, ... etc)	Format: (1,2,3, ... etc)	Format: (0 - Guest, 1,2,3, ... etc - Customer)	Format: (need fill, required, if Customer ID = 0)	Format: (need fill, required, if Customer ID = 0)	Example: Title review	Example: Test message	Example: Test response by admin	Format: (0 or 1)	Format: (dd/mm/yyyy)	Format: (0 or 1)
Example: 1	Example: 5	Example: 1	Example: 1	Example: John Doe	Example: John@doe.com				Example: 1	Example: 24/10/2017	Example: 1

1. Download an example of CSV file (you can write your reviews directly in it)
2. You must respect the following rules to upload the CSV Product Reviews correctly
3. Select your CSV file and click «Import reviews»

NOTE: Save your file in CSV format. If you use Open Office, choose the option "Field separator: semi-colon"

2. Export Product Reviews

Go to module settings -> tab «Reviews» -> tab «CSV import/export product reviews»

The screenshot shows the Mitroscops module settings interface. At the top, a navigation bar includes links for Welcome, Google Rich Snippets & Rich Pins, **Reviews** (highlighted with a red box), Store reviews, User profile, Social networks Integration, Help / Documentation, and Mitroscops Modules. A left sidebar lists various settings categories, with 'CSV import/export product reviews settings' at the bottom, also highlighted with a red box. The main content area is titled 'CSV IMPORT/EXPORT PRODUCT REVIEWS SETTINGS'. It contains a table with 11 columns (A-L) detailing the required CSV format for product reviews, including fields like Language ID, Rating, Product ID, Customer ID, Customer full name, Customer email, Title, Message, Admin Response, Display 'Admin response' on the site, Date Add, and Status. Below the table, there are links to download a CSV example and instructions on saving the file. At the bottom, there are two sections: 'CSV IMPORT' with a 'Browse...' button and an 'Import reviews' button, and 'CSV EXPORT' with an 'Export all reviews' button (highlighted with a red box).

FREQUENTLY ASKED QUESTIONS

- CUSTOM HOOK HELP: How I can show block last reviews on a single page (CMS or blog for example) ?

You just need to add a line of code to the tpl file of the page where you want to add the block last reviews.

```
<hook:hm="LastReviewsMulticaps">
```

2. Add code in your template in any place in where you want

You just need to add a line of code to the tpl file of the page where you want to add the block last reviews.

```
{hook h='lastReviewsMitrocops'}
```

14. I get 500 Internal Error, when try get Images (Avatar does not load and File upload does not work)

Internal 500 error - this error related with setting of your server.

- The problem may be in the access rights to the folder /modules/reviewsadv/ Must be 0777 or 0755

- The problem may be in the .htaccess file in the folder /modules/ . Try delete/rename file .htaccess

- The problem may be in the index.php file in the folder /modules/ . Try delete/rename file index.php

Deactivation:

1. Uninstall module.

Log into Prestashop Admin Panel and go to Back Office > Modules > **Content Management** Modules and uninstall **Product Reviews Advanced PRO + Reminder + User Profile** module.

2. Clear cache.

Prestashop 1.7.x.x

Log into Prestashop Admin Panel and go to Back Office > Advanced Parameters > Performance and set Template compilation: Force compilation. and set Cache: No

Prestashop 1.6.x.x

Log into Prestashop Admin Panel and go to Back Office > Advanced Parameters > Performance and set Template compilation: Force compilation.
